## Summary

Email Production & Technical Support Specialist | SaaS & Marketing Technology | API-Literate

Proactive and detail-oriented professional with 7+ years of experience in **email development, campaign operations, and technical product support** for world-class brands including **Apple and Google**. Skilled in debugging complex workflows, collaborating cross-functionally with engineering, design, and marketing teams, and delivering flawless digital experiences. Adept at **remote-first communication**, technical troubleshooting, and translating product complexity into clear, customer-focused solutions. Passionate about building **scalable email programs, supporting SaaS platforms, and driving customer success**.

---

## Professional Experience

### Email Producer – Marketing Services

**Apple (via TSG Contract)** | Remote | Nov 2023 – Mar 2025

- Delivered **high-visibility global campaigns** (Apple Music, Apple Gift Cards) ensuring 100% error-free execution.
- Partnered with design, engineering, and legal teams to align creative, compliance, and technical requirements.
- Debugged and tested campaigns across platforms, reducing pre-launch defects and ensuring **cross-client compatibility**.
- Recommended process improvements, influencing **faster approval cycles and optimized workflows**.
- Thrived in a **remote, fast-paced environment**, balancing multiple deadlines with precision.

## Email Developer II – Marketing Operations

Google (via Hawkeye) | Remote | Mar 2018 – Nov 2023

- Designed and coded **personalized, dynamic templates** using HTML, CSS, JavaScript, Freemarker, and Jinja.
- Collaborated with engineering and product teams to resolve **API-driven rendering and automation issues**.
- Executed **A/B tests and segmentation strategies**, improving engagement metrics across global audiences.
- Provided technical support and training for marketing teams, increasing adoption of advanced template features.
- Enhanced campaign reliability by implementing **robust QA processes**, reducing error rates.

## STEM Instructor

Makaboom | Santa Clara, CA | Jan 2018 – Feb 2018

- Taught foundational programming, IoT, and robotics concepts to young learners.
- Designed and led courses on drone programming, battle-bot construction, and Scratch-based games.

## Coding Instructor & Teaching Assistant

Codify Academy | San Francisco, CA | Aug 2017 – Nov 2017

- Mentored students in **HTML, CSS, JavaScript, and responsive design**.
- Guided learners through real-world coding challenges and best practices.

---

## Technical Skills

- **Email Development:** HTML5, CSS3, Bootstrap, Freemarker, Jinja
- **Programming & Scripting:** JavaScript, jQuery

- **Marketing Technologies:** Email automation, segmentation, A/B testing, CRM integration
  - **Debugging & QA:** Litmus, cross-client testing, responsive design best practices
  - **Version Control:** Git, GitHub
  - **Support Tools:** Zendesk, ticketing systems, customer documentation
  - **API & Webhooks:** Experience supporting systems with backend/API integrations
- 

## Education

**San José State University** – Kinesiology & Exercise Science, 2016 – 2017

**City College of San Francisco** – A.S., Kinesiology & Exercise Science, 2009 – 2012

---

## Certifications

- Blockchain Principles – Blockgeeks
  - Grow with Google Challenge Scholarship – Udacity
  - Data Structures in JavaScript – Udemy
  - Complexity Theory Basics – Udemy
- 

## Key Projects & Achievements

- Successfully launched **global Apple Music and Apple Gift Card campaigns**, enhancing engagement and conversion.
- Built and tested **scalable, modular email templates** improving deliverability and campaign efficiency.

- Introduced **dynamic content strategies** leading to measurable lifts in open and click-through rates.
  - Recognized by teams at Apple & Google for **technical expertise and reliable execution** in high-pressure projects.
- 

## Professional Interests

- **Customer Success & SaaS Support** – passionate about helping users solve complex issues and optimize their workflows.
- **Email Development & Marketing Technology** – continuously refining skills in personalization, automation, and dynamic content.
- **Cross-Cultural Communication** – currently studying **Japanese language and culture** to strengthen global communication skills and broaden career opportunities with international teams.
- **AI & Automation in Marketing** – actively exploring how AI-driven tools are transforming customer engagement and technical workflows.
